Allianz 

True to our promises

Message from Walter White
President and Chief Executive Officer

At Allianz Life Insurance Company of North America (Allianz), every decision we make is guided by a single principle: **We're true to the people we serve, each and every day.**

That commitment is at the heart of every decision we make – from the products we offer, to how we manage our assets.

We're proud to be a leading provider of innovative financial products – including fixed annuities, variable annuities, and life insurance – that help our customers pursue their financial goals.

We're also proud of our disciplined investment approach. We focus on stability, reliability, and long-term gains, which helps us guarantee the benefits we offer and the money you entrust to our care.

The detailed information in the following pages will show you how we earn that trust ... and how we're true to our promises, so you can be true to yours. After all, a promise is a promise.

We focus on results.

At Allianz, we understand that the savings you work hard to accumulate have a value beyond the numbers. Your savings represent your dreams for the future, your goals, and the security you need to enjoy the life you want.

That's why we've built our company around a commitment to being true: We're true to our customers. We're true to our promises. And we're true to our investment philosophy.

We've designed our conservative investment management approach to weather all market conditions and achieve long-term gains. We seek steady, reliable performance based on:

- Diversification across high-quality, fixed-income asset types
- High credit rating requirements
- Efficient asset-liability matching and strong risk modeling
- A high level of liquidity

We're experts in risk management.

We use our extensive, in-house risk-management capabilities to monitor and control risk in real time. This allows us to hedge against potentially extreme market events, from general market turbulence to periodic financial crises. We've been successfully hedging our products since 1996.

Our approach to risk management also allows us to design innovative products. As a leader in fixed and variable annuities, we create products that help consumers to build their assets over the long term – and receive income for life – while managing risk.

We're part of a global financial powerhouse.

We're proud to be part of Allianz SE, a global financial services group. Founded in 1890 in Germany, Allianz SE has over 78 million customers in 70 countries.

Investment-grade securities are generally of higher quality and are more likely to repay principal than non-investment-grade securities.
