

Buying Term Life Insurance

November 28th, 2015

18 years as a life insurance agent has allowed me to see many developments. But, there is one thing that will always remain constant. If something happens to you, I will be one of the few people ***giving a check*** to your loved ones instead of asking for one.

Now, I can offer you a better buying experience too!

Term Life Insurance radio commercials are prolific these days. But, how many of them promise that you do not need to reveal any contact information of any kind until you are ready to buy?

Term Life Insurance has always been an inexpensive way to protect your loved ones from your untimely death and today it is more affordable than ever.

But, when it comes time to get serious about shopping around, how many times have you stopped because some search website asks for contact information before they let you in on these low prices? Furthermore, how accurate are these prices?

Now, you have the ability to “go shopping” in the privacy of your home or office without some website trying to leverage contact information from you.

I am very proud to introduce a new way to shop for affordable Term Life Insurance!

1. Click on www.baumanfinancial.com
2. Click on the “Get a Quote” banner”.
3. Just answer a few generic questions and adjust the green slide button to customize your death benefit and the number of years of protection you are considering.

See the accompanying screen shot.

After following these simple steps, you will be shown the top Term Life companies ranked by price.....all customized for you with NO CONTACT INFORMATION needed!

When you are ready to buy, simply click the “choose” button to start the handy pre-application process. At this point, you can continue on the website or you can always call me to confirm your results and work with me in person or my phone. I look forward to helping you get the protection you need.
